

Magnetic Particle Inspection

Level II

Training and Recertification Class

Clark Patton, Buckeye-Pacific Testing, in cooperation with RMLA is going to offer a 3 day class on Magnetic Particle Inspection, Level II Training. The Magnetic Particle testing class consists of at least twenty-six (26) hours of instruction over three days and can lead to certification as an ASNT Level II magnetic particle inspector. Certification will depend on successful completion of the General, Specific and Practical tests that are administered the last day of class. While the course is directed to the particular needs of ski areas performing maintenance NDT for their own information and for compliance with ANSI B77.1, general NDT topics are covered to an extent that certification is not limited to ski lift parts.

NEW TEXTBOOK: After 30-years, the main textbook has been updated and will be required for the training. The new textbook is included in the cost of the class.

- Magnetic Particle Testing (MT) Programmed Instruction Series (\$120.00)

HANDBOOK: The “Programed Instruction Handbook, Nondestructive Testing Introduction” is the same and is also required to attend the training. If you have the handbook, bring it to the training. You can purchase a copy for (\$25.00)

Personnel needing to recertify their Level II Certification can contact Clark Patton to make special arraignments to do so while he is conducting the training session.

TIME: Monday May 7, 2018 thru Wednesday May 9, 2018 – 8:00 a.m. to 5:00 pm each day.
